Subject: Phase 1 Work Progresses in Support of Continued Safe Operations

THE HANFORD SITE

August 13, 2020

TO: All Hanford Site Employees

SUBJECT: Phase 1 Work Progresses in Support of Continued Safe Operations

****PLEASE SHARE THIS MESSAGE WITH THOSE WHO ARE NOT ON COMPUTERS****

The Hanford Site will continue in Phase 1 operations for the week of 17 August. Hanford Site leadership remains focused on the safety and health of our workforce, deliberately evaluating work scope and the necessary resources to support our important mission each week. Our Hanford team, starting from 23 March when we reduced site operations, has consistently done a tremendous job in managing our Site to ensure the safety and security of the workforce, our community, and the environment. Those teleworking have also continued to deliver progress in moving our essential mission forward.

While we continue to gradually return our workforce, I ask that you stay focused on your personal health as well as the health of our teammates. Please remain aware of your wellness and if you feel sick or experience COVID-19-related symptoms, contact your supervisor and stay home. Also, I hope that you will continue to follow established COVID-19 protocols both at work and at home. Community controls are paying off as COVID-19 cases continue to trend downward and health system capacity remains readily available for those in need.

Each of you is a valuable member of the Hanford team and together we are continuing to safely advance our important mission. Please be safe and let's continue to work together to keep each other healthy while also supporting our community.

Brian T. Vance
Manager
Richland Operations /
Office of River Protection
